BS in Information Management

Kathmandu, Nepal, 2014

EXPERIENCE

Senior Product Designer CANDID.ORG 2020 - Present

- Led design of Candid's MCP integration with Anthropic/Claude, expanding AI-powered nonprofit data access to all Claude users.
- Piloted a Generative AI feature converting IRS Form 990 data into readable nonprofit narratives, driving ~90% profile manager adoption.
- Boosted user retention by 50% for org profile claiming and increased Seals of Transparency (data submissions) by 60% through research-led UX redesign.
- Applied design thinking across moderated and unmoderated user research, improving task completion rates across core product flows.
- Designed Candid Data System, an enterprise database platform, improving performance metrics and efficiency through user research-based interface updates.
- Led GuideStar and Foundation Directory redesign on the Candid Search, enabling nonprofit and grantmaker discovery nationwide.
- Spearheaded Philanthropy News Digest redesign as design and development lead, supporting 450K monthly page views.
- Built a scalable design system with variables from scratch, reducing prototyping time by 50% across 7 product teams
- Partnered with engineering, data science & influence to align quarterly delivery with long-term vision.

UX Designer and Developer COREWEAVE 2019

- Designed and developed the revamp of Concierge Renders website, a 3D rendering platform.
- Designed social media assets communicating creator-focused brand identity across digital channels.

UX Research Fellow VERIZON 5G, NYC MEDIA LAB, YAHOO SPORTS 2018

- Received $5K grant to research 5G's impact on sports experiences; conducted 80+ interviews via Lean Launchpad over 8 weeks.
- Built a start-up and successfully pitched the demo to investors.

Teaching and Research Assistant PARSONS SCHOOL OF DESIGN 2018 - 2019

- Taught a bootcamp course to incoming graduate students in the Design and Technology program covering front-end development, digital product design, and design thinking and principles.
- Collaborated with Tongji University in China for an interactive course, Motion Capture at a Distance.

UX Designer and Developer FUSEMACHINES 2014 - 2017

- Led end-to-end web projects across tech and education clients, managing design templates, prototypes, and client relationships.

MENTORSHIPS
